*****Immediate Position Available*****

Burke Divide Electric Cooperative has one opening for the position of Journeyman Lineworker. The deadline to submit an application is end of day May 19, 2025.

JOURNEYMAN LINeworker

1 POSITION FUNCTION

- (a) To supply the present and future electrical service needs of its consumers in an efficient and economical manner.
- (b) To provide for effective and efficient operations, maintenance and construction activities on energized or de-energized lines with or without supervision.
- (c) Under the direction of the Line Crew Foreman, the Lineworker is responsible for building, maintaining, and repairing overhead and underground power distribution lines, and overhead transmission lines within the scope of his/her training and certification in a safe and efficient manner within accepted operations standards.

2 RESPONSIBILITIES AND AUTHORITIES

Within the limits of approved BDEC policies, operating guides and procedures assumes responsibility and has commensurate authority for the following activities:

- (a) Investigates and remedies service interruptions and assists in evaluating the cause of the interruption to assure prompt restoration of service to customers and continued service reliability.
- (b) Participates in the construction of distribution lines and services as assigned to provide new or improved service to our customers.
- (c) Performs maintenance activities on energized or de-energized lines to keep the system in a safe and operable condition.
- (d) Assists in analyzing and evaluating operation and maintenance activities relative to customer facilities and assists in investigation and resolution of service problems to assure that installations and services are made in compliance with required specifications and to maintain customer confidence and satisfaction with our electric service delivery.
- (e) Conducts line patrol activities and takes corrective actions as deemed necessary to assure safe and reliable service to customers.
- (f) Performs switching procedures when deemed necessary or as directed to facilitate operations.

- (g) Installs sectionalizing equipment and assists with maintenance to provide continued reliable service within the required specifications.
- (h) Hooks up single-phase and multi-phase transformer connections using the correct configuration to assure end user of proper voltage levels.
- (i) Directs the work activities of an Apprentice Lineworker as assigned and assists in the on-the-job training of Apprentice Lineworker during their four-year apprenticeship to insure safe working practices are followed and to help insure that they are capable of assuming Journey Lineworker duties after the training period is complete.
- (j) Maintains security and street lighting and promotes the installation of improved lighting equipment to provide for a safe, secure environment during the evening hours.
- (k) Coordinates and oversees the work of outside contractors when assigned to assure compliance with required specifications and safe working conditions.
- (l) Makes frequent checks of tools and protective equipment and submits recommendations for replacing defective materials to assure that they are safe and operable.
- (m) Assists in the maintenance of vehicles vehicle material inventories and equipment assigned to work unit to assure that they are safe, operable and that the required documentation is completed.
- (n) Maintains material inventories and completes required documentation for assigned vehicle and projects to assure proper material records are kept.
- (o) Attends and participates in safety meetings to become aware of safety rules and regulations and to help assure that safe working practices are followed and a safe working environment exists for the individual, fellow employees and customers.
- (p) Maintains a current knowledge of first aid, CPR and other life saving techniques and performs these techniques as necessary to ensure that prompt attention is given to co-workers during emergencies.
- (q) Assures the maximum productive use of personnel, materials and equipment on assigned projects consistent with approved specifications and in compliance with established safe working practices and policies to assure a safe and productive work environment.
- (r) Maintains current knowledge of equipment, RUS specifications, OSHA regulations, mapping system, and other operational and regulatory systems related to the responsibilities of the position.
- (s) Keeps informed of and provides support for Cooperative goals, policies, plans and programs to assist the Cooperative in providing services which meet the expectations of our customers and to allow the Cooperative to continue to be a positive influence within its service area.
- (t) Scheduled on call time is required.
- (u) In addition to these responsibilities, may be assigned to perform other duties from time to time.

3 EDUCATION

- a) High school diploma or equivalent required.
- b) Graduation from vocational/technical school in power line studies, or equivalent experience required.
- c) Successful completion of a qualified four-year Journey Lineworker training program is required.
- d) Certification as a Journey Lineworker through the US Department of Labor may be substituted for the Apprentice Lineworker training program.
- e) North Dakota Class A CDL drivers license and a current Medical Examiners Certification is required. Must have and maintain an insurable driving record

4 KNOWLEDGE
